

INTRAACTIVE INTRANET

IntraActive Intranet is a complete intranet solution for Microsoft 365. Our goal is to make it easy for you, to reach your employees where they are.

With IntraActive Intranet you can offer your employees the news, messages, policies, guidelines and tools that they need on a daily basis.

IntraActive Intranet contains a series of modules that you can use for creating the most valuable intranet for your organization.

KEY FEATURES

NEWS

With the news module all employees in your organization can contribute with inspiring news.

EASY TO USE

All our modules are user-friendly and help your employees create and handle content like news, events and handbooks.

INSIGHT AND OVERVIEW

Get insight into the life cycle of your intranet content and the usage of your intranet over time.

GOVERNANCE

Governance is typically the hardest part of maintaining an intranet. Our features help you keep your content up to date.

EASILY ADJUSTABLE

All features are designed to be user-friendly for your editors to use and adaptable to your corporate design.

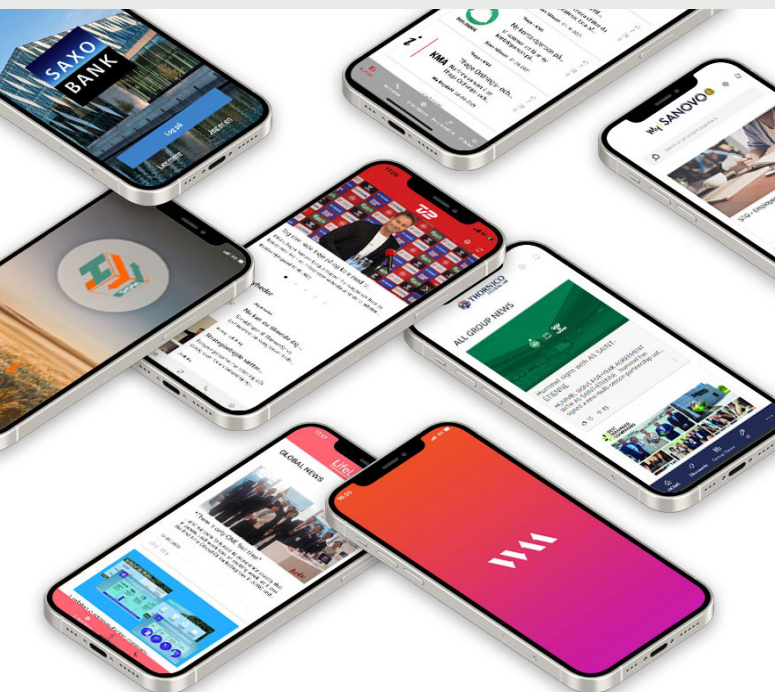

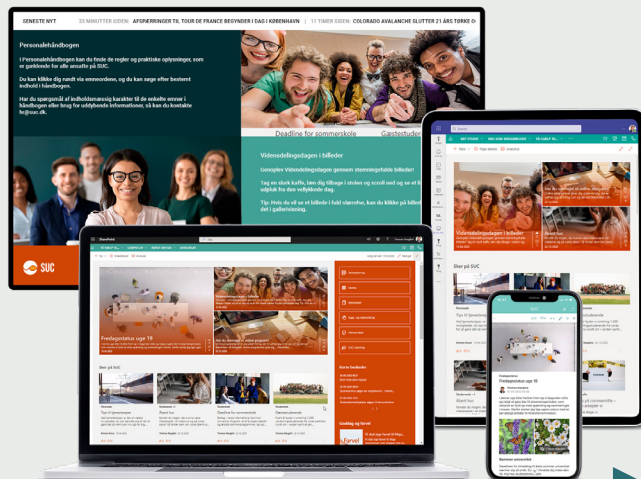

INSPIRATION

Get access to our community where we share knowledge and inspiration on achieving and maintaining the successful intranet.

FOR ALL YOUR EMPLOYEES

Strong communication requires the right tools. We help you reach your different employee groups with targeted information.

ALWAYS AVAILABLE

Offer your employees a modern mobile app so they can keep up to date on internal news and events while on the go. Show content from the intranet on digital signage and make your organization more cohesive.
